Matthews' American Armoury

and

Blue Book.

—

1907.

Because of the rapidly increasing interest in Heraldry and Genealogy in America today, we decided to re-publish the "American Armoury and Blue Book" by John Matthews.

We believe it is an outstanding, comprehensive, authentically documented volume containing genealogical histories and showing numerous coat-of-arms illustrations of some of America's most prominent families.

Because of the unusual nature of the contents of this book, it will be eagerly awaited by researchers, genealogists and heraldic artists.

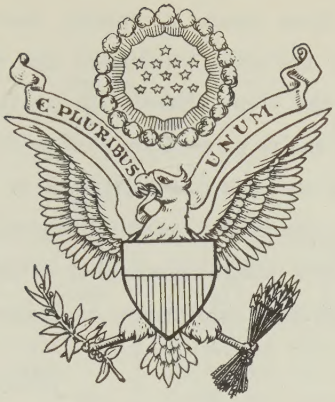
"THERE IS A MORAL AND PHILOSOPHICAL RESPECT FOR OUR ANCESTORS WHICH ELEVATES THE CHARACTER AND IMPROVES THE HEART. NEXT TO THE SENSE OF RELIGIOUS DUTY AND MORAL FEELING, I HARDLY KNOW WHAT SHOULD BEAR WITH STRONGER OBLIGATION ON A LIBERAL AND ENLIGHTENED MIND THAN A CONSCIOUSNESS OF AN ALLIANCE WITH EXCELLENCE WHICH IS DEPARTED, AND A CONSCIOUSNESS, TOO, THAT IN ITS ACTS AND CONDUCT, AND EVEN IN THE SENTIMENTS AND THOUGHTS, IT MAY BE ACTIVELY OPERATING ON THE HAPPINESS OF THOSE WHO COME AFTER IT."—*Daniel Webster.*

57490



PREFACE.

The American Armoury and Blue Book is now so well established as a time-honoured Record of Armigerous Families in the United States of America that this New Edition needs no *apologia pro vitâ suâ*, nor any statement either of its well-known attributes and aims, or of the means adopted by the Editor to render it a faithful exponent of American Ancestry and Heraldry, points which have all been dealt with at length in the Prefaces to earlier Editions.

In certain features, however, the New Edition may claim a higher place than those which have preceded it, as the Editor has given greater detail of lineage, and has added "Armorial Addenda," making the work historically comprehensive by grouping at the end of the Volume such Arms, not being in the body of the work, as are now used in America by descendants of those Armigeri to whose names, arranged in lexicographical order, the Arms are severally attached.

The Supplementary List will be of interest to a wider section of the American people than the other part of the work, and it is hoped that its inclusion in the Armoury will prompt many to supply the Editor with the necessary details of their lineage to enable him to locate them in the body of the Work.

The detailed lineage from the earliest known ancestor, now for the first time made a general feature, serves a double purpose, for it not only establishes the claim that has always been made for the Work that it is a trustworthy Record, but will doubtless often enable an enquirer seeking to elaborate his pedigree, whether on the one side of the Atlantic or the other, to recognize some ancestor among the various lineages, and so get into communication with a collateral member of his family in a position to afford him valuable information as to his own descent.

JOHN MATTHEWS,
Editor.
